Re: Exemption No. 4296G for FAR 91.9(A)

Dear Sir:

Everts Air Fuel wishes to amend its present Exemption No. 4296, granting relief from the requirements of FAR 91.31(a). We would like to delete aircraft N4390F and add N444CE, N251CE and N888DG.

We request this exemption based on the ongoing requirements of our business in supplying isolated villages by the only means of transportation available in the State of Alaska. The reasons and facts as described in the request that resulted in the granting of Exemption No. 4296 remain unchanged.

Everts Air Fuel has demonstrated it has successfully met the requirements of the exemption without incident.

In considering the foregoing, we request that amending our exemption is in the public interest and desire that Exemption No. 4296 be amended to include N451CE, N444CE, N251CE and N888DG.

Sincerely,

*Karen L. E. Wing*
